Recipe
Of The Month

Recipe Title: Starbucks Pumpkin Cream Cold Brew

Ingredients:

For the Cold Brew
1.5 c. cold brew concentrate
1.5 tsp. granulated sugar
¾ tsp. vanilla extract
Ice cubes, if desired

For the Pumpkin Cream
2 tbsp. heavy whipping cream
2 tbsp. whole milk
½ tsp. pumpkin puree
¼ tsp. granulated sugar
⅛ tsp. vanilla extract
pinch of ground turmeric (optional)
pinch of pumpkin spice

Directions:

Cold Brew. Pour the cold brew, sugar, and vanilla into a 13-ounce glass and stir until the sugar has completely dissolved. Add more sugar, if desired.

Pumpkin Cream. Pour all of the foam ingredients into a mixing bowl and froth them with a milk frother or a hand-held electric mixer on high speed. If you're using a mixer, it will take about 2 minutes for the mixture to thicken to a whipped cream-like consistency.

Assembly. Pour the pumpkin cream over the back of a spoon so it floats on top of the coffee. It may take a couple of tries to perfect this technique, so don't be discouraged if it doesn't work perfectly the first time. Garnish the drink with a sprinkle of pumpkin spice and enjoy immediately.
